

PolyCore™ / PolyCore II™

COLOR: White

- BASIC USES:**
- Reinforce critical repairs
 - Cap and re-clad BUR, concrete roofs

PRODUCT DESCRIPTION: PolyCore™ stitch bonded 100% polyester reinforcing membrane makes every repair stronger. The precisely spaced warp provides integrated channels for the liquid rubber to flow through, interlocking and further increasing dimensional integrity. PolyCore II™, with its flatter profile, permits complete encapsulation with less coating.

- FEATURES:**
- Multi-dimensional strength
 - Virtually tear-proof by hand
 - Excellent stress accommodation
 - Easily conforms to irregular shapes
 - Lightweight

	PolyCore™	PolyCore™ II
Typical Product Characteristics:		
Weight	2 lb./100 ft ²	<2 lb./100 ft ²
Tensile Strength (min.)	55 lb.	75 lb.
Elongation (min.)	60%	40%
Mullin Burst	175 lb.	105 lb.
Trapezoid Tear	16 lb.	13 lb.
Roll Sizes	4" x 300' 6" x 300' 40" x 324'	42" x 300' **

*Yields 10.8 squares after 4" overlap

** Yields 9 squares after 6" overlap
